

The National Valve Museum

Updates March 2015

New exhibits this month come from the Hampshire collection (in the store for some years), Gerry Horrox of Crowthorne Tubes and the valves donated by Val Dawe. Thanks also to G8BLW for the Audiotron advert. (adv903)

Added another 49 exhibits to take the total from 4053 to 4102 and re-photographed some earlier exhibits.

Added 6 boxes – box247 – box252.

This month I have been adding to the www.lasercomms.org.uk site with a new historical articles section. These ten articles cover the optical communications experiments recorded in The Radio Constructor during the 1960s.
