

The National Valve Museum

Updates May 2018

This month I have updated my list of periodicals – I seem to have forgotten to do so after buying more at last year's NVCF. Added to Wireless World, Modern Wireless and Popular Wireless.

This year at the NVCF I found a few partial copies of Popular Wireless from the early 1930s. Obtaining a decent image from newspaper that is almost 90 years old is a slow process but wonderful to see the clean images appear.
