

The Valve Museum

Updates January 2023

Any file reference given here can be located by using the search facility. E.g., A search for art-322 will go directly to the article. The article will also appear in the articles index and linked to some exhibits and/or indexes.

Boxes and adverts can be found in the same way, by search or via the indexes.

Related links appear in the main heading box, under the title plus the extra's menu on the right side of each page gives links to related material where available.

A software upgrade has allowed for a second make/owner reference. This applies particularly to the Wehrmacht valves. This allows all German WWII government valves to be listed under Wehrmacht in the ephemera index. Additionally, their naming conventions have been added.

Errors in the presentation of the Mullard naming convention page have been corrected.

A trawl through all of Keith Throwers data comparing to the main exhibits has resulted in a further 130 cross links being added.

Added 2 Brands/Makers

Ephe366 – Ei
Ephe367 - Polam

Added 1 Vintage Articles

Art-395 – Metal Instead of Glass - 1933

Added 4 Vintage Valve Boxes
