

# U.R.2

## FULL-WAVE RECTIFIER

### OPERATING DATA

Heater Current .. .. . 0.2 A.  
Heater Voltage .. .. . 30.0 V.  
Max. Anode Voltage 250-0-250 V. r.m.s.

### OUTPUT.

Max. Rectified Output 120 mA. D.C., at 250 V.

### APPLICATION.

- (1) Half-wave rectifier with both anodes connected together and both cathodes connected together.
- (2) Full-wave rectifier with the cathodes connected together.
- (3) Voltage doubler rectifier.

### BASE.

"P" type Universal 8-contact base. For connections see page 92.
