

The National Valve Museum

Updates April 2018

This month I have brought the microwave museum (www.microwave-museum.org) into the same data format as the valve museum so that processing can be done with the same software. Plus we have built a large pond to re-house my goldfish. Their previous home was sacrificed to make way for our new garden building that houses: – museum office, shack and sewing studio. The temporary pond was too shaded and plants and fish have suffered over the past 18 months.

Added 7 exhibits to take the total from 5274 to 5281.

Added 1 recollection

vox-018 – The ACM3 and early Band I TV Transmitters in the UK
